

Catalina

FIG TREE & CO

... She felt the warm sand between her toes.

A fresh, crisp sister collection to one of our all time favorite fabric groups, Avalon, Catalina will have you daydreaming of days at the beach in retro bathing suits under a huge umbrella! Based on a creamy white background [instead of our standard ivory], each and every color has you reminiscing about popsicles, beach balls and walks along the shoreline. This is definitely a Fig Tree version of summertime picnics and patriotic florals! Filled with a lovely assortment of retro-inspired blender prints, this collection works for so many different projects!
